

EeMAP – Project Deliverable

D2.5 Archive of relevant research resources

GA Number:	746205
Project Title:	EeMAP
Document Type:	Report

Document Title:	Archive of relevant research resources
Source Activity:	WP2/R/PU
Editor:	Prof. Dr. L. Pelizzon (SAFE)
Authors:	Max Riedel
Status / Issue:	Final
Date Last Change:	06.11.2017
File:	EeMAP_D2.5_SAFE_Final
Contractual Delivery Date:	M6

Document History:	
08.08.2017	Document created
06.09.2017	First draft circulated
06.11.2017	Final draft circulated
07.11.2017	Final version

EeMAP – Energy efficient Mortgages Action Plan - is an initiative by the European Mortgage Federation - European Covered Bond Council (EMF-ECBC); UK Green Buildings Council; Royal Institution of Chartered Surveyors; Ca' Foscari University of Venice, E.ON and SAFE Goethe University Frankfurt. www.energyefficientmortgages.eu

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 746205

Executive Summary

This document lists the archived literature that was used for the production of the EeMAP Project Deliverables D2.1 Best practice identification in “Green” mortgage finance, D2.2 Best practice in EE measurement indicators, D2.3 Best practice in the definition of “Green” value, and D2.4 Review of the impact of energy efficiency on probability of default.

Table of Contents

1	Introduction	4
2	Bibliography	4

1 Introduction

This document provides an alphabetically ordered list of the literature archive for the four EeMAP Project Deliverables D2.1 Best practice identification in “Green” mortgage finance, D2.2 Best practice in EE measurement indicators, D2.3 Best practice in the definition of “Green” value, and D2.4 Review of the impact of energy efficiency on probability of default.

Most studies can be accessed via download link provided in the brackets. Additionally, the studies are stored in pdf format on the local server of the EeMAP Project.
